Mouse basics

• Go to http://www.learnmyway.com/ and click on Sign in.

**Note:** if you have not yet created an account you will need to do this first.

• Click inside the text boxes then enter you Username and Password.

Note: Usernames and Passwords are both case sensitive so make sure the CapsLk is not on.

- Click on **Log in** to continue and reveal a list of the modules available and a record of whether they have been started or completed.
- Choose OB2 Using a mouse by clicking on it.
- The welcome screen will appear with a spoken invitation to retain audio or switch it off.

**Note:** you can choose to have audio on or off throughout the units - so you can change mind later.

- Click on **Start** to reveal the units in this module and whether they are started or completed.
- Work through the units to complete all and this will then be recorded on your Home page.

**Note:** you can also obtain this module by clicking on **'I want to start with the Keyboard and Mouse'** on the Learn My Way opening page then selecting from the list of modules shown on the left of the screen.
