

# Adbloc Plus

<https://adblockplus.org/> (or simply type Adbloc Plus into Google)

Adbloc Plus will help avoid annoying advertsiemnmets popping up when you are web browsing.

Start by accessing the Adbloc Plus website from whichever browser you intend to add it to. Adbloc Plus will automatically recognise the browser you are using and offer the right version of the software.

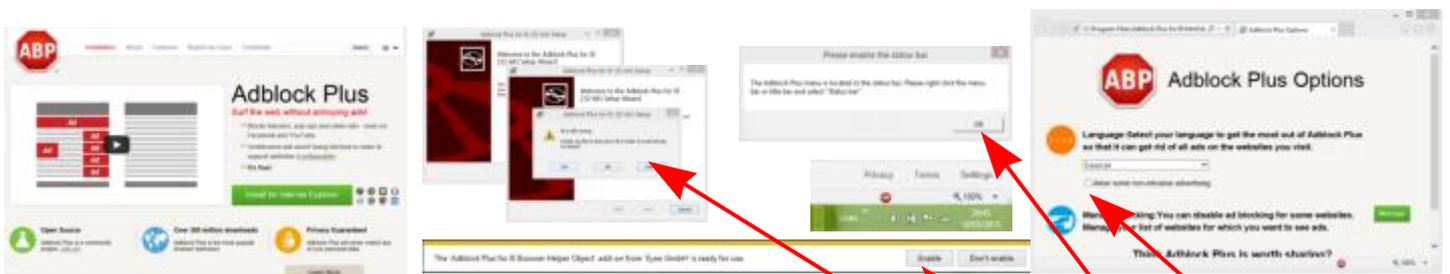

## Firefox:

- This version installs itself effortlessly and results in an icon appearing top right of the screen.
- Click on the drop-down arrow at the side of the icon and choose Filter Preferences.
- Untick the box against 'Allow some non-intrusive advertising' if you don't want any at all

## Chrome:

- This version also installs itself effortlessly and results in an icon appearing top right of the screen.
- Click on the the icon and choose Options.
- Untick the box against 'Allow some non-intrusive advertising' if you don't want any at all

## Internet Explorer:

- This version will ask to close down IE before installation can continue and will offer to do it automatically
- Keep an eye on the bottom of the screen and respond to any prompts which appear there.
- You will need to reveal the IE Status Bar to see the icon at the bottom right (right click at top of screen)
- Click on the Icon then Settings to reveal the Adbloc Plus Options
- Untick the box against 'Allow some non-intrusive advertising' if you don't want any at all
