

Hampsthwaite Memorial Hall Risk Assessment Record

Risk Assessment: (title of Event, Project, Activity or Task)

| Breakdown of Event, Project, Activity or Task: | Hazard(s): | Who's at risk: | Risk Level (LHD) : | Risk Level (CON) : | Precautions and Control Measures required: (State 'existing measures' if adequate) | Residual Risk Level (RR) : |
|---------------------------------------------------|------------|----------------|-----------------------|-----------------------|---------------------------------------------------------------------------------------|-------------------------------|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

Notes:

- The **Risk Rating** is then calculated by multiplying the Likelihood (LHD) and Consequence (CON) figures. **Risk Ratings of 4 or more are significant and will demand action.**
- A **Residual Risk Level (RR)** of 4 will require constant supervision and if 5 the Event, Project, Activity or Task should not proceed.

Method statement:

(i.e. details of how overall supervision and other planned safety oriented procedures will be implemented during the period of the Event, Project, Activity, or Task, and by whom.)

Review Date: Annually
