

KIDS CAN DO IT!

Making Model Dinosaurs

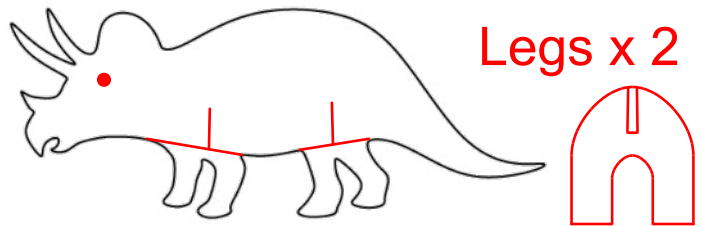

Choose your Dinosaur then try to find, a simple outline of it - try searching for Dinosaur Outline drawings in Google.

Print it and stick it on to card using wall paper adhesive . . .

. . . or draw directly on to card

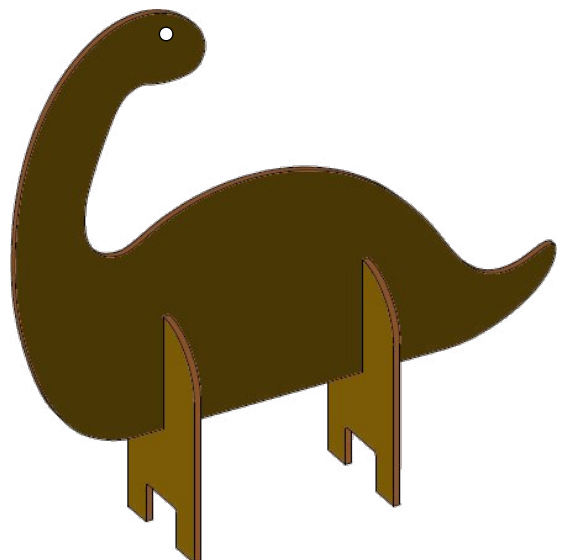

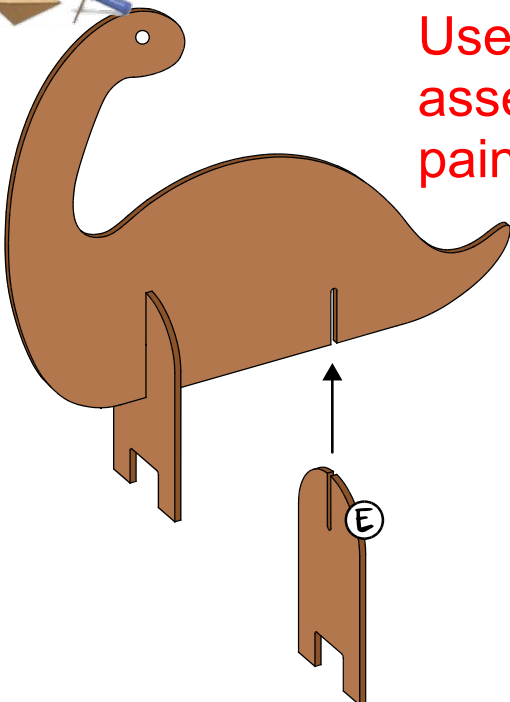

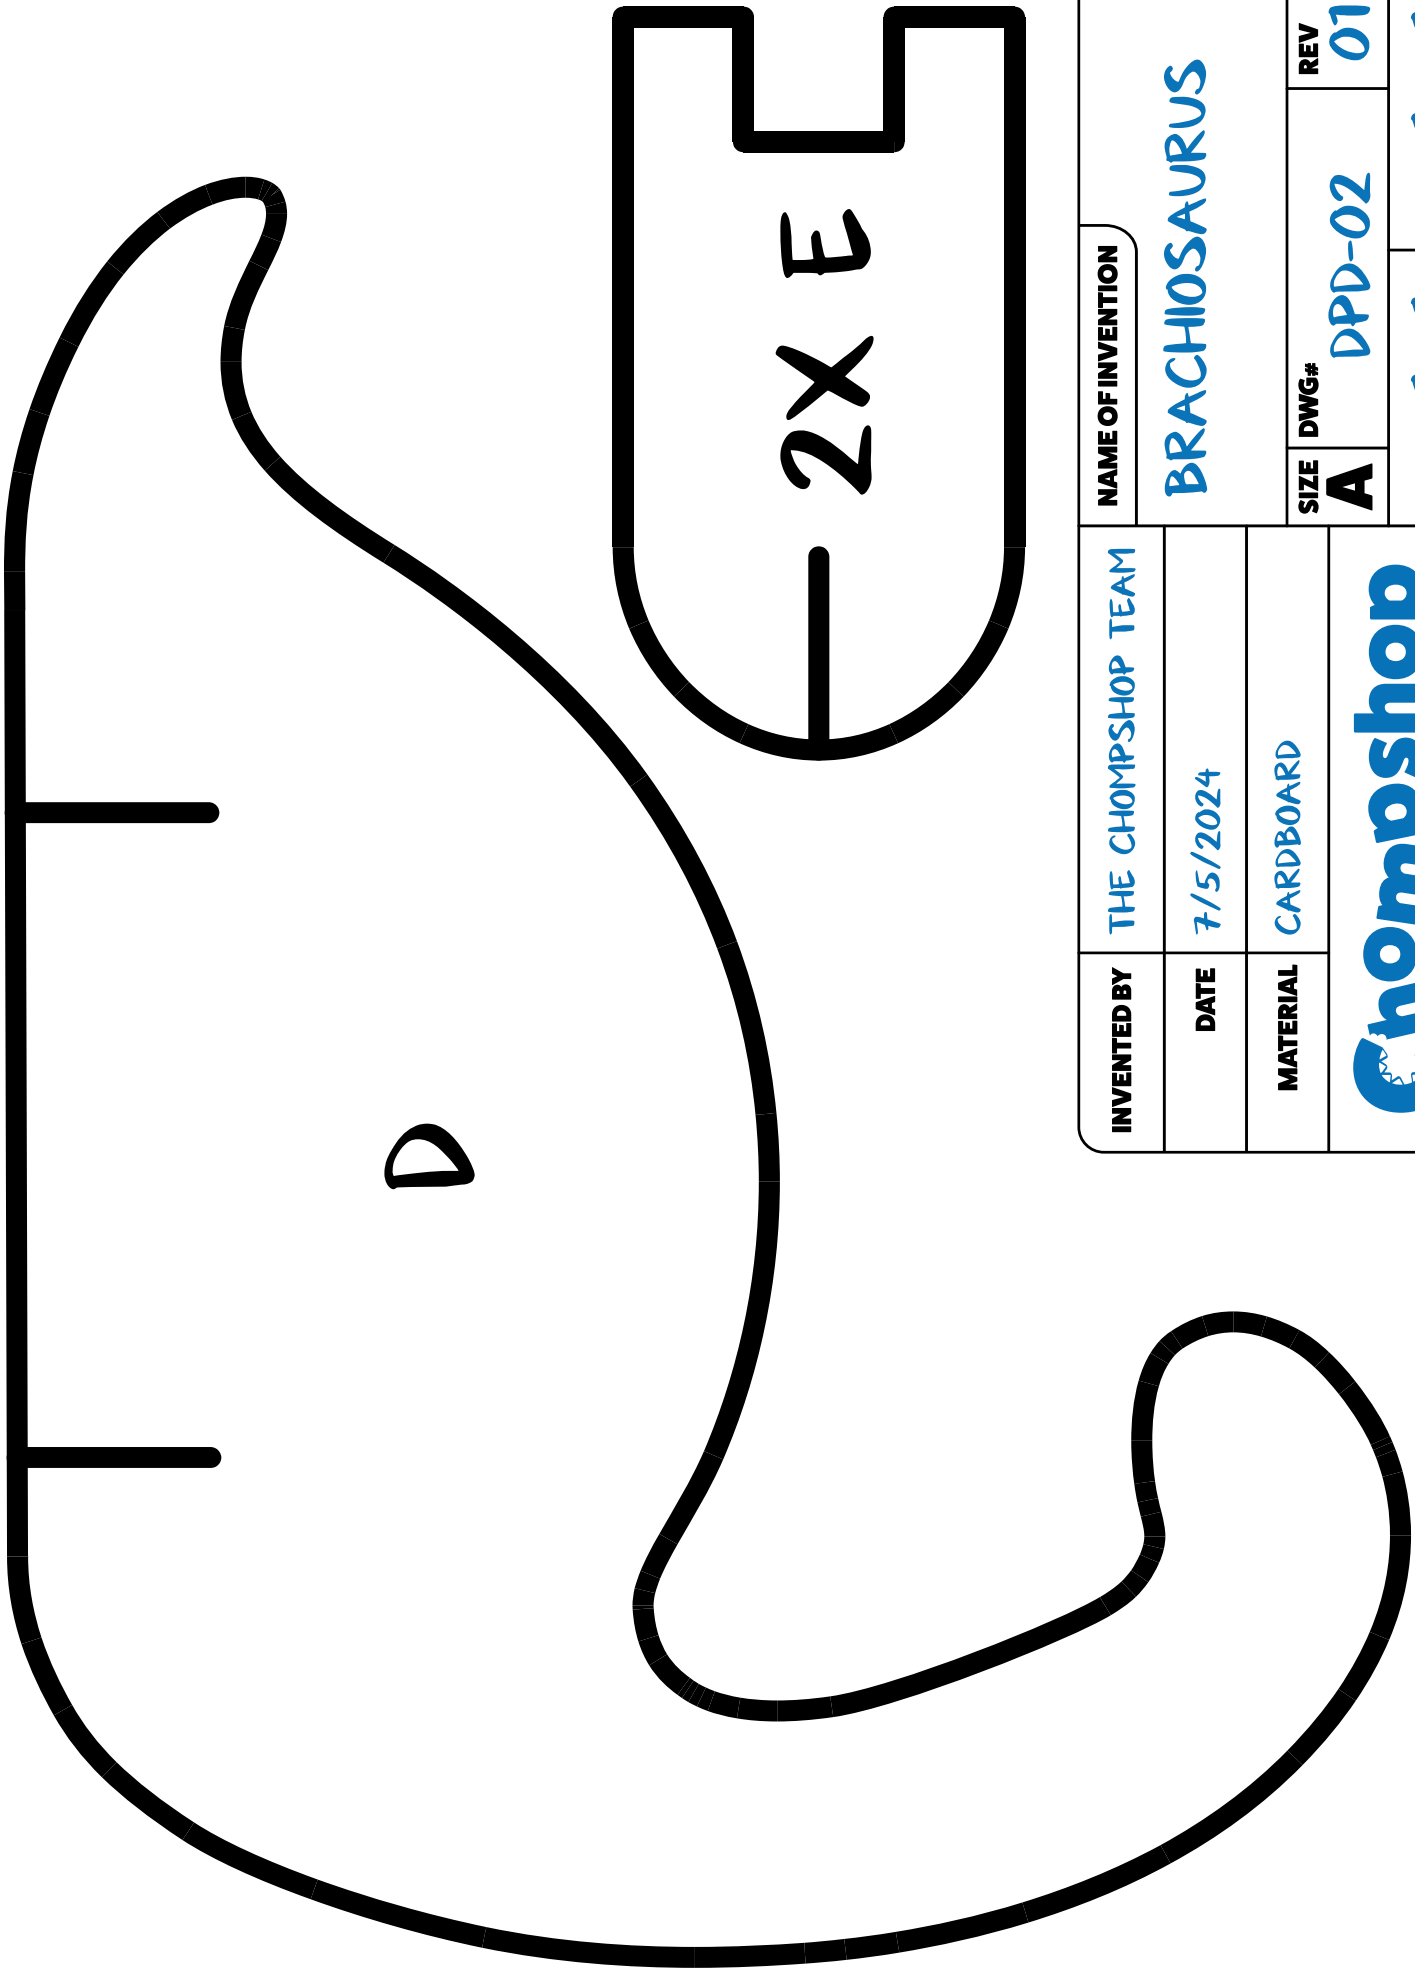

Modify the outline to have slots where legs fit and draw legs separately

Use the Chompsaw to cut out the basic outline. Use hole punch and scissors to cut intricate parts

Use hole punch to make eyes and assemble the model as shown then paint.
